

The Hotel Bedside Solution You and Your Guests Can Rely On

Today's modern guest travels with multiple devices, so it's crucial to offer a bedside solution to give them the ability to charge them.

model: HPCLKR01

model: HPCLKR02

Built-in user friendly features, like Bluetooth, will also give guests the ability to stream their favorite music creating a home-away-from-home environment. While guests enjoy the suite of features, the non-porous surface will make it a breeze to clean. Using the highest quality standards, Hotel Preferred will help you achieve brand consistency and create a guest experience that will keep your guests coming back.

Key Features

Convenience

The **Hospitality Mode** incorporated into every clock radio will ensure that clocks are automatically updated for **Daylight Savings Times**. Printed on the clock itself, **Alarm Directions** make it a breeze for guests to set up their wake time. Future guests will not be disturbed with the built-in single day alarm feature.

Connectivity

With conveniently located **Charging Outlets** and **USB Charging Ports**, guests will have the ability to charge up to 4 devices with model HPCLKR01. No longer will they have to move lamps or nightstands in order to charge their phones, laptops, tablets and any other devices. Your guests can stay connected at all times.

Clarity

The large **3.2-Inch LCD Screen** makes it easy for guests to see the time. The **Dimmable** feature gives guests the ability to choose the brightness level to what they desire.
